Planned Temporary Industrial Wastewater Treatment

Aquamove™, the Veolia brand for mobile water solutions, offers a complete range of technologies and services meeting short or long term water treatment needs.

- Large fleet of trailers and containers
- Full assistance and availability
- High flow rate capacity solutions
- Continuous production

The Aquamove™ mobile wastewater treatment units can treat highly polluted effluents from industrial and municipal applications.

- Pilots Plants
- High Capacity units
- Compliance with Standards
- Zero Liquid Discharge
- Re-use

**Typical Applications**
- Turbidity, suspended solids removal
- Fat, oil, grease, proteins, heavy metals removal
- COD/BOD, phosphor, nitrogen treatment
- Salinity removal
- Color, algae removal
- Pesticides, micro-pollutants removal, etc.

**Environmental Solutions**
- High energy efficiency
- Low maintenance cost
- High reliability
- Easy to install
- High sludge concentration
- Full assistance for operation
Aquamove™ mobile water solutions help our clients to treat their effluents in case of overload (peaks) or emergency cases, to be in line with the local authorities rules and avoid environmental disasters. Aquamove™ proposes a wide range of technological solutions, including:

- **Screen Filtration**
- **Pre-treatment**
  - Chemical precipitation, Clarification (Actiflo™), Dissolved Air Flotation (DAF Idraflot™)
  - Carbon Media Filtration
- **Effluent Treatment**
  - Moving Bed Biofilm Reactor (MBBR), Membrane bioreactor (MBR), Evaporation (Evaled™)
- **Sludge Treatment**
  - Clarification (Actiflo™), Dissolved Air Flotation (DAF Idraflot™)
- **Tertiary Treatment**
  - Disc and drum filtration, Membrane technologies, Selective ion exchange resins

Our local service engineer will visit your site regularly to ensure that the unit is operating correctly. For easier operation, Aquamove can implement remote monitoring control solutions.
